BIG BARBECUE JULY 4 AT THE COUNTY SEAT

Double-Header Ball Game, Numerous Contests and Other Forms of Amusement.

Crossville is going to have the biggest celebration in years, on next Tuesday, July the Fourth. We hope to make it an affair that will long be remembered by all who attend. Among the special features will be a free barbecue, an unusual display of fire works at night and an address during the day, the hour for which to be arranged later.

An effort is being made to secure Capt. T. F. Peck, Commissioner of Agriculture, as the speaker of the day. A double-header ball game will be played, in the afternoon with Monterey opposing the home team.

There will be a number of contests for which prizes will be offered; as running, jumping, bicycle racing and other competing games. All who wish to take part in the contests should apply to the program committee.

The committee on arrangements consists of J. E. Harrison, General Chairman, R. E. Newton, Secretary, Italy Bilibrey, T. E. Measamer, Roy Jackson, and the sub-committees as follows:

Program Committee.

Rev. W. H. Blue, Chairman, Rev. W. C. Creasman, Rev. R. E. Newton. Finance and Fireworks Committee. Cosby Harrison

Barbecue Committee.

W. T. Hudson, Chairman, Jonas I. Snodgrass, F. A. Loshbough, Mrs. H. I. Bilibrey, Mrs. W. F. Bandy, Mrs. E. M. Roland, Mrs. Andy Elmore, Mrs. J. S. Reed, Mrs. W. A. Reed and Mrs. G. E. Harrison.

Committee on Boys' Contests.

H. I. Bilibrey, Jack Black, Clay Rose and Paul Green.

Committee on Girls' Contests.

Miss Ethel Walker, Miss Gladys Comstock and Miss Hallie Dunbar.

Committee on Old Fiddlers Contest. A. J. McGuire, Chairman, Will Hem-bree, and S. C. Cline.

Others will be added to these committees and possibly other committees will be added.

The General Committee solicits the co-operation of everybody and sincerely wishes everybody a good time.

ELECTION COMMISSIONERS TO MEET SATURDAY.

The election commissioners of the three county boards plan to meet in the court house Saturday to select officers, judges and clerks for holding the two primary elections and the regular election August 3.

Regular Commissioners:

The regular election commissioners are G. W. Davenport, Chairman, Geo. P. Burnett, Secretary; L. T. Thurman, Mr. Burnett is in Nashville and is not likely to be here.

Republican Commissioners:

The Republican primary commissioners are: J. W. Dorton, Chairman; S. C. Bishop, Secretary; Jere Morrow, T. J. Kerley and J. D. Wyatt.

Democratic Commissioners.

The Democratic primary commissioners are: C. G. Black, Chairman; J. D. McClary, Secretary; E. G. Tollett, L. W. Martin and L. T. Thurman.

Cumberland Mountain School has secured the services for the coming year of E. H. Elam as director of the Agricultural Department of the school and director of Animal Husbandry. Mr. Elam has had wide experience since his graduation from the University of Tennessee and comes to the work splendidly equipped. He is here now and actively directing and mapping out plans for the coming year.

Private Secretary A. L. Garrison was home from Nashville for the week-end. He returned to his duties at the state house Monday.

Commissioner of Agriculture Capt. T. F. Peck, was here for the week-end and left for Nashville Monday. He was looking for a location for a home here. He looked at several places and made investigation as to the cost of lumber. Should he decide to locate here he will erect a new residence of the modern type. He is expected to arrive here in a short time with some Nashville parties whom he expects to interest in this section. From rumors that are flying some very interesting and helpful developments may be expected. We hope to be able to give the Chronicle readers encouraging news within a comparatively short time.

Mr. and Mrs. G. F. Brookhart and babe were visiting his parents at Peavine, for the week-end.

COMMUNITY MEETING AT H. SCHOOL FRIDAY NIGHT

Numerous Short Talks on Important Subjects Touching the General Public Welfare.

A Community Meeting will be held in the High School building in connection with the Teachers' Institute which is being conducted this week. The purpose of the meeting is to bring together the teachers of the county and the patrons and friends of the schools that they might become better acquainted with each other, and may discuss problems of interest relating to the schools of this county.

Every one is invited to attend this meeting. The following is

3:30 Adjourn.

Miss Ethel Walker, Superintendent, has just returned from Johnson City where she attended the Conference of the East Tennessee County Superintendents.

Among the many important subjects discussed were: The Training and Certification of teacher. The Problem Confronting Rural School Teachers—especially those problems of one-teacher schools.

There are 34 counties in East Tennessee. From figures taken from the State Superintendent's report of 1921, Cumberland county stands 30th or 4th from the lowest, in point of education and efficiency of her teachers, while she stands 11th in point of salaries paid!

Remember State Superintendent Brown's visit—July 10th. The public should hear him. Hundreds of rural folk should hear him. Everybody is invited. He will be here in the interest of our schools and what he has to say should interest every man, woman and child in the county.

Following is the list of those in attendance with their home address.

WHAT OUR COUNTY PAYS; WHAT WE WILL RECEIVE

Receive More Than \$1,000 More Than All We Pay Into State Treasury.

The following letter was received from J. B. Brown, State Superintendent of Public Instruction which shows that this county receives more from the state for schools alone, by over \$1,000, than the entire taxes of this county paid into the state treasury. Superintendent Brown says:

"Every child has the right to the benefits of an education, whether that child lives in the wealthy, populous center or in the remote, sparsely settled, financially poor community.

"This state must follow the home with the school. Not only is this essential to the larger life of the individual and the prosperity of the home, it is vital to the welfare of the commonwealth. The state must educate its children, else the state will perish.

"Science and invention have produced marked changes in our economic situation. The towns and cities of the state have become the centers of commerce, trade and industry. Hence, the wealth of the state has in a large measure been withdrawn from the country and centered in the more populous areas. This uneven distribution of taxable wealth has imposed upon the state a revision of its methods of financing the public school system. Of necessity the state must give more financial aid to the financially poor counties. To fail to lend this aid would be to deny schools to these children and would result in the depopulation of the rural counties, the destruction of their wealth and the impoverishment of the state.

"According to the official records of 1921, Shelby county had her per capita wealth of \$4.93; back of each child between the ages of six and twenty-one; Van Buren, the median county, had \$1672; Pickett county had \$682.

"Shelby county would be required to levy 10c on the \$100 assessed valuation of property to produce \$5.00 per child of school age while Pickett county would be required to levy 75c on the \$100 assessed valuation of property to produce \$5.00 per child of school age. Levying the same tax in each of these counties for school purposes Shelby would be able to run

MEXICAN BEAN BEETLE BEST CONTROLLED BY SPRAY

Use Arsenate of Zinc or Arsenate of Lead, But Do Not Use Paris Green.

The best known methods of controlling the Mexican bean beetle may be summarized as follows:

1. Where the beetle has made its appearance, do not attempt to grow a late crop of garden beans. If some are desired for market or home canning, depend on a very EARLY crop only, using bush or bunch varieties of both snap and lima beans.

2. The Colorado Experiment Station recommends spraying beans with arsenate of zinc, one pound to 50 gallons of water. If the arsenate of zinc can not be obtained, use arsenate of lead, one pound of the powder to 40 gallons of water. Apply the spray to the under side of the leaves as soon as the adult beetles are noticed, and before the serious injury has resulted to the leaves.

It has been found that burning of the leaves by the spray material occurs more frequently on leaves that have been injured by insects.

In case of a heavy infestation a second spraying will be necessary in a week or ten days. DO NOT USE PARIS GREEN FOR IT WILL BURN THE LEAVES SERIOUSLY.

Sprayed beans are not injurious unless they have been sprayed a few days before picking; washing before use prevents any possible danger.

4. Plow under all bean crops as early in the fall as possible, in order to bury the adults. Destroy all of early crops as soon as beans have been removed, and replant to some crop other than beans or cowpeas.

her schools 7½ times as long as Pickett county.

"If Pickett county should levy a tax sufficient to meet the average amount spent for elementary education in Tennessee (\$12.03), it would require a county elementary school tax of \$2.00 on the \$100 assessed valuation of property. This rate, of course, would be impossible.

"Under the Acts of 1921 the following method of apportioning the State Elementary School Fund is provided:

1. \$6,000 to all counties of the State whose county court levies a county elementary school tax sufficient to produce \$5.00 per child of school age. If a minimum of 30c county elementary tax does not produce \$5 per child, said county will receive the \$6,000 provided every school in the county is run for at least 100 days' term. This 30c county elementary school tax is exclusive of the 7½ state elementary school tax which is collected and retained in the county where collected, nor does it include the 8c state elementary school tax.

2. "The remainder of the elementary school fund is distributed on the basis of the average daily attendance in the several counties of the state.
